In the light of these figures the steadtly increasing cost of living is an illwind that blows some good to the automobile industry of the country if to no
other, for it is a well known fact that
the expense of maintaining an automobile, gasoline or electric, tends constantly to reduce while the poor old horse
with his limited usefulness becomes increasingly expensive.

A number of accidents were narrowly averted on east South Temple street yesterday. The practise of traveling close to a street car and just behind is one which should be carefully avoided.

Harry Elliott of the Utah Motor com-pany says that when a funnel is ab-lolutely necessary on the road, discon-tect the horn and take out the reed, ifter which it will serve the purpose ery well.

W. W. Calder files a claim to be considered champion automobile retail sales man of the United States. In one day his week, he sold 10 automobiles valued at \$20.540. Mr. Calder would be pleased to note any record like that.

To avoid accidents from lack of firing when cranking, place the thumb against the index finger and tage the handle between the four fingers and the palm of the hand. The hand thus opens readily should a back-kick occur. Always crank up, never down.

According to one estimate, 280,000 motor cars will be manufactured in the United States in 1816. Their value will reach \$419,000,000, and they will have \$6,000,000 horsepower. The cars will weigh more than 300,000 tons and they will be sapable of carrying 1,200,000 people.

That stock car race is assuming pro-ortions. The recently organized Utah dotor company wants to tangle up with the Randall-Dodd Thomas Flyer with an American Trayeler, and James Lytle, the famous driver, will be rent to Salt Lake or guide. The big Chadwick was the original claimant. When the roads im-prove this race should be worth seeing.

MAKES GOOD FLIGHT

That his aeroplane is practical was emonstrated at West Jordan when L demonstrated at West Jordan when L. R. Culver attained a height of 15 feet and soared 259 yards before a crowd of fellow members of the Sait Lake Aero club. An accident to his motor necessitated a towing flight, an automobile being used for the propulsion. The aeroplane was working finely when the rope connection broke and the machine came to the ground, breaking one of the planes but not injuring the aviator. Mr. Culver will send east for a more powerful motor.

PAULHAN BUCKS STRONG HEAD WIND

New York, March 13.—In a cross, cheppy wind of about 20 miles an hour, which caught his piplane at the start and tipped if from side to side like a boat in a rolling sea. Louis Paulhan, the French aviator, made a daring flight at the Jamaica, L. I., race track, this afternoon. He was in the air eight minutes and 10 seconds and covered about six miles. Paulhan headed the big Farman biplane into the wind and flew straight out over the countryside toward. Far Rockaway and the ocean, making a graceful turn in the distance, and coming back with the wind at a mad speed. Returning, he soured over the grandstand, missing its flagpole by only a few feet, and landed in the enclosure within 100 feet of the starting point.

WORLD'S RECORD IS MADE BY OLDFIELD

Daytona. Fla., March 14.—Barney Oldfield, with his 200-horsepower Benz today drove a mile in 272-5 seconds, which is four-fifths of a second better than the world's record.

In the exhibition events Tuesday, which will supplant the Oldfield-De Palma match, Oldfield has consented to go for the one and two-mile world's records. All records he makes then will be official. The regular speed carnival dates, with the original program, will begin March 22 and continue for three days.

JACK'S AUTO UPSET.

Chicago, March 14.—Jack Johnson, colored heavyweight champion, will start training for his fight with Jeffries about April 1, according 10 announcement yesterday. Johnson intends to spend at least two months here in preliminary training, which will consist of road and gymnasium work. His plans for training quarters on the Pacific coast have not been completed. Johnson's automobile was overturned near Racine, Wis., yesterday, while he was driving toward Chicago. The champion was bruised, but not severely hurt.

SCHAEFER BURIED YESTERDAY.

Chicago, March 14.—The body of Jacob ichaefer, the "wizard" of the cue, was aid in a vault at Rose Hill cemetery aid in a value at the yesterday.

The burial was deferred until arrangements are completed for a monument which is to be purchased by billiard players of the country, at which time a lot will be selected.

Probably never before has the funeral of a billiard player drawn such wide attention as did the last services over Schaefer.

That basketball problem seems to be perennial. When everybody thought that it was all settled news comes that the supposedly forfeited game between the U. and the Y. M. C. A. was only postponed. There is a lurking feeling that a few of the second teams could defeat the so-called champions—if they can be found—on their merits. It is to be hoped that next season some definite line of procedure will be figured out so that everybody will know just who's who and what's what.
